Al Wafaq Contracting Company

www.alwafaq.com

AL WAFAQ CONTRACTING COMPANY is a 100 % Saudi owned establishment backed by a competent, professional and highly experienced team. AL WAFAQ is a contracting company with over 8 years of experience in the Kingdom of Saudi Arabia.

We break down our services into four dominant administrations such as MECHANICAL, CIVIL, MEP and INDUSTRIAL SUPPORT SERVICES. We have been recognized for our ability to deliver premium quality work in complex projects ranging from residential buildings to Oil and gas sector.

These results are attributed to the technical abilities and excellence in execution of our highly qualified team. Our strength lies in our capacity to provide our clients with effective solution based on the thorough understanding of their needs combined with our local expertise in the region.

Our values and business principles have earned us the trust of our clients. We are best known for our high level of client fulfilment in the preconstruction phase through our capability to strike the right balance between our schedule, budget and project goals.

Vision & Mission

- ▶ To be a prime force in the exciting and rapidly developing construction industry throughout the kingdom and to be the preferred partner, sharing expertise and delivering value, on time, always.
- ▶ To continually provide top notch quality innovative services in all areas of our business, through a combination of motivated management teams and highly skilled staff using the most modern technology and resources

We Focus In

- ▶ Safety (what we expect of our team)
- ▶ Quality(what we expect of ourselves)
- ▶ Integrity(the backbone of our business)
- ▶ Respect for Others(part of our company culture)
- ▶ Customer satisfaction(our greatest reward)
- ▶ Continuous Improvement(what we strive for)
- ▶ Developing the Best Team(what support our success)

Safety Policy

AL WAFAQ CONTRACTING COMPANY always consider safety in the very top priority at all times. It is the company policy that no single employee is at risk nor endangers by any procedure or standard practices imposed. The company will abide all Saudi government regulation, client safety regulations published before, after or within any contract. All managerial and supervisory staff are always reminded to enforce safety and wellbeing of the employee, in addition to productivity.

Our Management sets a high standard for employee's safety, health and welfare protection. Production and safety on site are vital criteria to ensure proper work execution. Recognizing these in the best interest of modern management practices.

We Strive to apply Safety Rules and Regulations, General Instruction, Codes and Procedures set by the client.

We conduct 10 minutes safety discussions, organized and implemented by each crew's supervisor every working day. Minutes of the meeting will be forwarded to Client's Representative.

We take care in educating all personnel on safety methods, procedures in using the Personnel Protective Equipment and existing restrictions on site.

We maintain a consistent quality standards in services, with an enhanced independently assessed quality management system. We focused highly on services to meet the specification and requirements. Quality system is set by our board of directors and the implementation of this policy is mandatory to all employees.

We consider our employees the most important aspect of our company.

- ▶ We provide training and qualification for our employees.
- ▶ We regularly motivate our employees with a Co-operative management style.
